product description: The ceiling profile is used as an element to create a supporting structure for a cable tray and to attach it to the ceiling or floor.

> Designated for fastening of the brackets DS, DT and DTN with the use of sliding nut PM 41 M 10 and the bolt with a hexagonal head S 10X20. For double-sided mounting, the DT brackets are attached using S 10X70 bolts, M 10 nuts and PD 10 washers.

The ceiling profile can also be used as a support for cable trays on the wall or on the ceiling profile.

For safety purposes, the end of the profile may be fitted with an OKSPS protective cover.

surface finish: F - suitable for indoor and outdoor installations (min. 1000 hours salt spray test according ISO 9227)

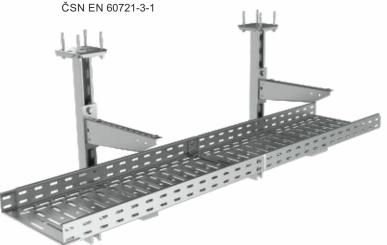

sales amount: 1 pc

classification 	ČSN 73 0895 DIN 4102-12	P 90-R E 90		
	STN 92 0205	PS 90		
	Fire classification depends on the specific conditions of the cable tray, detailed in the catalog Systems with maintained functionality in fire
